Hiring Manager

Subject: Application for Senior Management Role in **Distribution & Logistics** Management

Dear Sir,

I am writing to express my strong interest in the Senior Management position in distribution & logistics management within your esteemed organization. With more than 22 years of progressive leadership experience across FMCG, pharmaceuticals, and manufacturing sectors, I bring deep **expertise** in end-to-end **distribution & logistics management,** including **demand and supply planning (S&OP), warehouse & transportation, material management & inventory control, and supply chain strategy & planning**.

Currently serving as **General Manager, Distribution & Logistics Planning** | Head of Group Distribution at Matador Group, I lead nationwide distribution and logistics operations, including strategic planning, demand and supply planning (S&OP), inventory management, warehouse & transportation management, and cross-functional business coordination. I play strategic role in successfully managing large-scale distribution networks, focusing on cost optimization, service excellence, inventory efficiency, working capital improvement, digital transformation, and implementing data-driven logistics solutions aligned with business objectives.

Previously, I have also held senior leadership roles across **multinational** and leading group of companies, including **Super Star Group (SSG), UniMed UniHealth Pharmaceuticals Ltd., MGH Group** (Managed nationwide distribution and logistics operations for major principals including Sanofi-aventis Bangladesh Ltd., Sun Pharma Bangladesh Ltd., AstraZeneca, Nuvista pharma, SMC Pharma, P&G, and Gillette), **Synovia Pharma** (former **Sanofi-Aventis Bangladesh Ltd**.), **Aristopharma Ltd., Opsonin Pharma Ltd**., where I consistently delivered measurable improvements in operational and financial performance, cost efficiency, inventory turnover and service levels. I have led large-scale distribution operations, drove ERP/SAP-enabled transformation, and elevated the team and supplier performance through KPI-driven management.

I hold professional certifications including **CSCM™** (Certified Supply Chain Manager) and **CPLM™** (Certified Professional in Logistics Management) from **ISCEA-USA**, along with multiple postgraduation qualifications including **PGD** in **Supply Chain Management**, PGD in International Trade (Export & Import) Management, and PGD in Customs, VAT and Tax Management. Additionally, I possess an **MBA** & **Master's in Applied Statistics and Data Science**, which enables me in strong analytical and strategic planning capabilities.

I am particularly recognized for driving operational transformation and continuous improvement, leading high-performing teams, and delivering measurable business results through structured planning and execution. I am confident that my strategic leadership and operational expertise will contribute significantly to your organization's growth and transformation.

I would welcome the opportunity to contribute to your organization's continued growth and success.

Thank you for your time and consideration.

Yours sincerely,

Md. Shahidul Islam, CSCM™, CPLM™, PGD-SCM

PROFESSIONAL QUALIFICATIONS:

- **CSCM™- Certified Supply Chain Manager | ISCEA, USA**
- **CPLM™- Certified Professional in Logistics Management | ISCEA, USA**
- PGD in International Trade (Export & Import) Management | AIUB
- PGD in Customs, VAT & Income Tax Management | AIUB

PROFESSIONAL EXPERIENCE:

- **Matador Group**
  General Manager – Distribution & Logistics Planning | Head of Group Distribution
  October 2024 – Present | Dhaka
  Key Responsibilities:

- Lead nationwide distribution and logistics planning, and operational control across the group.
- Provide strategic directions in demand and supply planning, inventory control, warehousing, transportation.
- Develop and execute distribution and logistics strategies aligned with business objectives.

- Lead distribution network expansion strategy, including opening new depots and warehouses, analyzing market to support business growth.
- Drive Sales & Operations Planning (S&OP), demand forecasting, and Demand-Driven Replenishment Planning (DDRP) to ensure optimal inventory positioning across all nodes.
- Control distribution and logistics costs through advanced analytics, KPI tracking, and data-driven decision-making.
- Manage Operational Expenditure (OpEx) and Capital Expenditure (CapEx), identifying cost-saving opportunities.
- Collaborate with Sales, Production, Finance, HR, IT, and senior leadership to align strategies with business goals.
- Develop and enforce Standard Operating Procedures (SOPs), Quality Management Systems (QMS), and HSE policies.
- Conduct Root Cause Analysis (RCA) and implement Corrective and Preventive Actions (CAPA) to resolve operational issues and mitigate future risks.
- Manage third-party logistics (3PL), transport vendors, and distribution partners, ensuring cost efficiency and service reliability.
- Leverage data analytics and business intelligence tools to drive decision-making and strategic planning.
- Prepare management reports and dashboards, highlighting performance trends, business risks, and improvement opportunities.
- Distribution team management, including training and people development, performance evaluation, and succession planning, fostering a high-performance and compliance-driven culture.
- Identify opportunities for process optimization, cost reduction, and service enhancement through advanced analytics.
- Implement continuous improvement initiatives, innovative solutions, and best practices.

➢ **Super Star Group (SSG)**
Assistant General Manager – Distribution & Logistics Operations
February 2022 – September 2024
Key Responsibilities:

- Lead and manage nationwide distribution and logistics operations, including distribution channel management, and depot operations, ensuring operational excellence.
- Design and optimize distribution networks (depots, warehouses, regional hubs, and distributors), improving coverage, reducing lead time, and lowering logistics costs.
- Monitor and optimize inventory levels across depots and distributor points, reducing stock-outs, minimizing overstocking, and lowering obsolescence costs.
- Optimize fleet operations through route engineering, shipment consolidation (FTL), and cross-docking strategies, enhancing delivery efficiency and reducing empty miles.
- Define and track KPIs for logistics performance, depot productivity, distributor efficiency, and team productivity, and drive continuous performance improvement.
- Develop strategies for liquidation of slow-moving stock, and significantly reducing inventory holding costs, and improving cash flow.
- Expand distribution channel by identifying, onboarding, and managing distributor performance, increasing market reach and sales coverage.
- Collaborate with IT teams to enhance ERP/system capabilities, automation, and reporting tools, improving operational dashboards for business visibility.
- Conduct market visits and performance review, identifying growth opportunities, and improving service levels in all the regions.
- Build and maintain strong relationships with suppliers, distributors, and external partners, driving long-term business growth and operational excellence.

➢ **UniMed UniHealth Pharmaceuticals Ltd.**
Distribution Manager
April 2017 – January 2022
Key Responsibilities:

- Manage nationwide pharmaceutical distribution operations and imported healthcare product logistics, ensuring high OTIF service levels.
- Monitor and optimize inventory levels across all depots nationwide through effective replenishment and fulfillment planning, improving inventory turnover.

- Direct transportation planning, fleet capacity utilization, and vehicle movement planning, improving route productivity, reducing lead time, and optimizing logistics costs.
- Manage Accounts Receivable (AR) and credit control processes, consistently reducing Days Sales Outstanding (DSO).
- Ensure full compliance with ISO standards, Good Distribution Practices (GDP), GSDP, and regulatory requirements (USFDA, UKMHRA, DGDA, VAT, Fire Safety).
- Manage cold-chain and cool-chain logistics, ensuring proper storage and distribution conditions, temperature control, and product integrity across the supply chain.
- Analyze delivery return reports, identify root causes, and implement corrective actions, reducing return rates.
- Conduct quarterly balance confirmations with credit customers, ensuring financial accuracy.
- Ensure timely withdrawal and replacement of non-conforming products from the market, maintaining customer trust and regulatory compliance.
- Coordinate compliant destruction of non-conforming products through ERP-generated Destruction Notes, ensuring traceability and adherence to regulatory standards.

➢ **MGH Group | MGH HealthCare Ltd.**
Manager – Distribution Operations
January 2014 – March 2017
Key Responsibilities:

- Managed **nationwide distribution and logistics** operations for major principals including **Synovia Pharma** (former **Sanofi-aventis Bangladesh Ltd**.), **Sun Pharma Bangladesh Ltd**., **AstraZeneca**, **Nuvista pharma**, **SMC Pharma**, **P&G**, and **Gillette**.
- Lead end-to-end logistics management, including inventory management, warehouse management, transportation and distribution management, improving operational efficiency.
- Ensure efficient replenishment planning and stock transfer using ERP systems/ SAP, improving inventory turnover.
- Supervise inbound and outbound logistics, ensuring on-time delivery, and optimizing turnaround times across the supply chain.
- Ensure adherence to the 5 R's of logistics (Right Product, Quantity, Customer, Time, Quality, and Cost), enhancing service reliability.
- Implement and monitor GPS/VTS tracking systems, enabling real-time tracking of transport vehicles.
- Manage fleet maintenance and repair schedules, ensuring vehicle uptime and minimizing operational disruptions.
- Ensure timely bank deposit of sales proceeds and accurate remittance reporting, maintaining strong financial control and compliance.
- Conduct internal audits and enforce compliance with regulatory and operational standards.
- Support recruitment, training, and talent development programs, strengthening team capability and improving workforce productivity.

➢ **Synovia Pharma** (former **Sanofi-Aventis Bangladesh Ltd**.)
Assistant Manager – Distribution
August 2009 – December 2013
Key Responsibilities:

- Manage pharmaceutical distribution operations, including demand planning, supply planning, and order fulfillment, ensuring operational excellence.
- Enhance customer satisfaction by ensuring timely delivery, maintaining service quality, and resolving issues within defined SLAs.
- Design and execute Customer Satisfaction Surveys, and analyzing feedback to implement corrective actions, improving customer retention.
- Lead ERP (SAP) implementation and integration, enabling real-time visibility of inventory, sales, and financial transactions, improving data accuracy.
- Ensure timely preparation of Bank Reconciliation Statements (BRS) and Petty Cash Reconciliation, maintaining financial accuracy and compliance.
- Oversee warehouse hygiene and pest control programs, ensuring compliance with safety and quality standards, and reducing contamination risks.

- **Aristopharma Ltd.**
  Depot Manager – Dhaka
  August 2006 – July 2009
  Key Responsibilities:

- Lead depot operations, inventory control, transportation coordination, and customer order fulfillment activities.
- Oversee distribution and logistics planning, including route optimization, fleet capacity utilization, and last-mile delivery, improving delivery efficiency, and reducing costs.
- Implement robust inventory control systems, ensuring strict compliance with FIFO, FEFO, and LIFO methodologies, minimizing product expiry, and improving stock accuracy.
- Supervise warehouse operations, including Warehouse Management Systems (WMS), storage conditions (product shelving, temperature control, and relative humidity monitoring), optimal space utilization, and safety measures.
- Establish and maintain organized, hygienic, and compliant warehousing facilities, improving operational efficiency, and ensuring adherence to regulatory standards.
- Manage customer complaints and product replacement processes for non-conforming goods, ensuring on-time resolution and enhancing customer satisfaction.
- Maintain accurate documentation and regulatory compliance for warehousing, distribution, and institutional supply operations.

- **Opsonin Pharma Ltd.**
  Executive – Distribution
  October 2003 – July 2006
  Key Responsibilities:

- Manage end-to-end inventory control, including stock reconciliation, cycle counting, and inventory accuracy, minimizing shrinkage, obsolescence, and product expiry risks.
- Lead financial reconciliation processes, ensuring on-time recovery of receivables, and maintaining accurate financial records.
- Monitor and analyze operational expenditures (OpEx), identifying cost-saving opportunities, and reducing overall operational costs.
- Optimize transportation efficiency by enforcing standard cost-per-kilometer benchmarks, lowering logistics costs.
- Manage reverse logistics, including product recalls, and non-conforming product handling, ensuring adherence to quality standards and regulatory compliance.
- Coordinate distribution and packaging of promotional materials across multiple sales regions, and support revenue growth initiatives.
