EXECUTIVE SUMMARY

A strategic and results-driven **Graduate Civil Engineer and Project Management Executive** with **15+ years of robust experience** leading multi-million dollar structural engineering, luxury interior fit-outs, and sustainable industrial mega-projects. Currently serving as **Deputy General Manager (DGM) – Head of Civil**. Proven track record directing cross-functional teams, managing international consultants, and ensuring 100% compliance with global structural safety and sustainability frameworks (LEED, SBTi). Expert in executing high-rise structures (20+ stories) and delivering state-of-the-art commercial and industrial infrastructures on time and under budget.

CORE COMPETENCIES

- **Executive Leadership:** Project Lifecycle Management, Strategic Planning, Cost Control & Budget Optimization.
- **Engineering Excellence:** High-Rise Construction (20+ Stories), Multi-Basement Structures, Structural Retrofitting.
- **Interior Fit-Outs:** Luxury Residential, Corporate Head Offices, Premium Commercial Showrooms.
- **Global Compliance:** RSC, Accord, Alliance, Nirapon/Elevate, Primark (Mott MacDonald), Bureau Verities.
- **Sustainability:** USGBC LEED Green Buildings, GHG Emissions (Scope 1, 2, 3), SBTi Frameworks.
- **Commercial Management:** Tender Management, Comprehensive BOQ/BOM Analysis, Vendor & Contract Negotiation.

REMARKABLE COMPLETED ENGINEERING PORTFOLIO (SELECTED)

- **Twin 20-Story High-Rise Residential Towers (University of Dhaka):** Coordinated the complete structural execution and deep-basement substructure engineering for Bangabandhu Tower and Shahid Sheikh Russell Tower.

- **Mega Industrial Chemical Complex Housing (Shahjalal Fertilizer Project):** Supervised heavy civil engineering works, specialized foundation execution, and critical interior fit-outs across **58 distinct industrial structures** under BCIC oversight.

- **Industrial Green & Environmental Utility Assets:** Program-managed the structural design and installation of complex **Effluent Treatment Plants (ETP)**, **Sewage Treatment Plants (STP)**, **Water Treatment Plants (WTP)**, and advanced **Rainwater Harvesting systems**.

- **Disaster-Resilient Coastal Infrastructure:** Directed the turnkey project management and site implementation of **100 multi-purpose, wind-and-wave-resistant cyclone shelters** serving as primary schools across the coastal belts of Bangladesh.

- **National Sports Infrastructure Developments:** Oversaw structural fit-outs, spatial zoning, and grandstand engineering for the **Hobigonj**, **Chuadanga**, and **Mymensingh District Stadiums**.

- **Healthcare Facilities Engineering:** Managed the construction and interior engineering of a **10-story, multi-basement hospital complex** for the Bangladesh Lions Foundation at Agargaon, Dhaka.

- **Institutional Mega-Housing (7th March Bhaban):** Led the construction and interior delivery of an **11-story high-capacity female student hall** (1,000+ student capacity) at Rokeya Hall Complex, University of Dhaka.

- **International Diplomatic Infrastructure:** Supervised the high-end interior fit-out and technical zoning for the **International Secretariat Building of Partners in Population and Development (PPD)** at Agargaon, Dhaka.

- **Super-Luxury Residential Engineering:** Spearheaded the turnkey structural execution and 7-star hospitality-standard premium fit-out of a **30,000 sq. ft. triplex estate** at Mohakhali DOHS, Dhaka.

- **Educational Structure:** 11-district youth training center under Department of youth Development, Bangladesh and research center of Bangladesh live-stoke research institute.

- **Export-Oriented Mega Factory Frameworks:** Led the Greenfield construction of over **1.8 million sq. ft.** of heavy industrial spinning, knitting, dyeing, garments manufacturing, washing, and accessories plants. Simultaneously engineered structural retrofitting and load optimization for **12 existing operational structures** in compliance with **BNBC, IBC, NFPA, and ASTM global safety standards**.

CHRONOLOGICAL WORK EXPERIENCE

1. Norban Group of Companies

Designation: Deputy General Manager (DGM) – Head of Civil
Duration: January 2026 – Present | Location: Dhaka & Gazipur, Bangladesh

- **Strategic Oversight:** Direct all civil infrastructure, facility extensions, and premium interior fit-out projects from conceptual design to successful handover.
- **Financial Control:** Oversee multi-million BDT budgets, analyze BOQs, and implement lean engineering practices to achieve substantial cost savings.
- **Cross-Border Collaboration:** Manage international suppliers and consultants from China, India, Turkey, and SE Asia.
- **Key Achievements:**
  - Spearheaded the construction of **300,000+ sq. ft.** of industrial complexes, including specialized environmental structures (ETP, WTP, STP).
  - Successfully executed structural re-engineering and retrofitting for **12 heavy-capacity factory facilities** to ensure structural safety.

2. Windy Group

Designation: Deputy General Manager (Civil Engineering)
Duration: April 2018 – December-2025

- **Project Delivery:** Managed a massive portfolio of luxury commercial, hospitality, and heavy industrial structures.
- **Compliance Leadership:** Secured immediate health, safety, and green building clearances from top international auditors (LEED, RSC, Nirapon).
- **Key Achievements:**
  - Directed the premium construction and 7-star fit-out of a **30,000 sq. ft. luxury triplex residence**.
  - Delivered over **950,000 sq. ft.** of industrial manufacturing facilities alongside a 300-capacity corporate headquarters.

3. The Delta Group of Industries

Designation: Manager (Civil)
Duration: August 2015 – March 2018 | Location: Gazipur

- **Value Engineering:** Reviewed structural drawings and introduced value engineering models that cut material waste without compromising safety.
- **Key Achievements:** Managed **550,000+ sq. ft.** of new construction and successfully fitted out multiple commercial showrooms and corporate office divisions.

4. Srejanee Upadeshta Ltd.

Designation: Civil Engineer.
Duration: November 2009 – August 2015 | *Location: Dhaka*.

- **On-Site Execution:** Supervised daily operations for high-rise residential projects and institutional infrastructure.
- **Key Achievements:** Successfully supervised the construction of **20-story high-rise structures** for Dhaka University and implemented **100+ coastal cyclone shelters**.

EDUCATION & CREDENTIALS

- **B.Sc. in Civil Engineering** | Institution of Engineers Bangladesh (IEB) (CGPA: 3.28)
- **Post Graduate Diploma in Project Management** | Edupro UK / ABP
- **Post Graduate Diploma in Risk & Compliance Management** | Edupro UK / ABP
- **Diploma in Engineering (Mechanical / RAC)** | Patuakhali Polytechnic Institute (CGPA: 3.73)

SOFTWARE, TECHNICAL METHODOLOGIES & TRAININGS

- **Structural Software:** ETABS, STAAD Pro, SAFE, GEAR, AutoCAD (2D & 3D).
- **Management Tools:** MS Project, MS Office Suite (Advanced Excel, PowerPoint).
- **Engineering Codes:** Expert understanding of the **BNBC (Bangladesh National Building Code)**, IBC, NFPA, ASTM, ACI etc.
- **Corporate Trainings:** Safety, Building Information Modeling (BIM), Sustainable Supply Chains, and Construction Management (IEB & AVE Engineering).
- **Languages:** English (Professional/Excellent Fluency) including **MOI**, Bengali (Native)
