## Career Summary

A result-driven Graduate Civil Engineer and Project Management Professional with over 14 years of robust experience spanning structural engineering, interior fit-outs, and sustainable industrial project delivery. Currently serving as Deputy General Manager –Head of Civil at Norban Group of Companies, with a proven track record of managing 15+ high-end interior fit-out projects and overseeing the construction of high-rise (20+ stories) multi-basement structures. A subject matter expert in structural safety compliance, having spearheaded 30+ Detailed Engineering Assessments (DEA) and managed 20+ large-scale projects as a Project Manager and Quality Head. Fully trained in global sustainability frameworks, including GHG Emissions (Scope 1, 2, & 3) and Science-Based Target settings (SBTi). Exceptionally skilled in cross-border collaboration, with extensive experience managing international consultants, suppliers, and implementation teams from China, Indonesia, Vietnam, Thailand, India, Turkey, Malaysia, and Sri Lanka.

## Career Objective

To leverage my 14+ years of leadership and technical expertise in a senior executive role, driving the planning, budgeting, and flawless execution of luxury interior fit-outs and USGBC-certified (green building) commercial, industrial, residential, and healthcare projects. Dedicated to upholding the highest global safety standards through expert floor live-load management, structural maintenance, and seamless compliance audits with international third-party bodies (RSC, Accord, Alliance, Nirapon/Elevate, Primark/Mott MacDonald, Inditex, and Bureau Veritas). Aiming to utilize my strong negotiation, decision-making, and multicultural leadership skills to align large project teams with organizational goals, ensuring on-time and cost-effective delivery.

## Key Skills:

- Interior Fit-Out Project Management
- Structural & Architectural Coordination
- Structure & workplace Inspection & safety assessment
- Project planning & structural Design
- Project feasibility study
- Cost Analysis & Budgeting
- MEP Integration & Site Execution
- Quality Assurance & Finishing Standards
- Tender Management, BOQ, BOM
- Facilitation
- Quality Assurance
- Monitoring & Supervision
- Vendor & Subcontractor Management
- Budgeting, Cost Control & BOQ Analysis
- Communication & Coordination
- Leadership & Presentation
- Interpersonal Relationship
- Training and Development
- Problem Solving

## Work Experiences:

1. **Organization:** Norban Group of Companies
   **Designation: DGM- Head of Civil**
   **Reporting To:** Managing Director & Chairman
   **Duration:** From Jan, 2026 to till now
   **Job Responsibilities:**
   **Job Location:** Head office and factories Dhaka & Gazipur

- **Project Planning & Execution**: Develop detailed fit-out schedules, coordinate with stakeholders, and oversee execution from mobilization to handover.
- **Design Coordination**: Liaise with architects, designers, and consultants to ensure design intent is translated into practical, buildable solutions.
- **Site Supervision**: Monitor daily site activities, ensure adherence to quality standards, and resolve on-site issues promptly.
- **Vendor & Subcontractor Management**: Select, negotiate, and supervise subcontractors and suppliers to ensure timely delivery and compliance with specifications.
- **Budget & Cost Control**: Prepare BOQs, track expenditures, and implement cost-saving measures without compromising quality.
- **Material & Finish Selection**: Approve samples, mock-ups, and ensure high-end finishes meet client expectations.
- **Compliance & Safety**: Ensure all works comply with local regulations, safety standards, and environmental guidelines.
- **Client & Stakeholder Communication**: Provide regular updates, manage expectations, and ensure client satisfaction throughout the project lifecycle.
- **Snagging & Handover**: Conduct inspections, manage snag lists, and ensure defect-free handover within agreed timelines.

**Achievements:**
**Scale & Execution:** Successfully spearheaded the construction of over 300,000 sq. ft. of industrial factory buildings, including complex environmental structures such as ETPs, WTPs, and STPs.

**Compliance Excellence:** Earned official safety recognition and compliance clearance letters from top-tier international third-party compliance bodies, including RSC, Alliance, Nirapon/Elevate, Primark (Mott MacDonald), and LEED.

**Structural Retrofitting & Optimization:** Led the comprehensive structural safety assessments, structural re-engineering, and interior reorganization for 12 existing, high-capacity factory buildings to optimize space and compliance.

2. **Organization:** Windy Group
   **Designation:** DGM (Civil Engineer)
   **Reporting To:** Managing Director & Director
   **Duration:** From April 2018 to till now
   **Job Responsibilities:**
   **Job Location:** Head office**,** Uttara, Dhaka

- **Project Planning & Execution**: Develop detailed fit-out schedules, coordinate with stakeholders, and oversee execution from mobilization to handover.
- **Design Coordination**: Liaise with architects, designers, and consultants to ensure design intent is translated into practical, buildable solutions.
- **Site Supervision**: Monitor daily site activities, ensure adherence to quality standards, and resolve on-site issues promptly.

- **Vendor & Subcontractor Management**: Select, negotiate, and supervise subcontractors and suppliers to ensure timely delivery and compliance with specifications.
- **Budget & Cost Control**: Prepare BOQs, track expenditures, and implement cost-saving measures without compromising quality.
- **Material & Finish Selection**: Approve samples, mock-ups, and ensure high-end finishes meet client expectations.
- **Compliance & Safety**: Ensure all works comply with local regulations, safety standards, and environmental guidelines.
- **Client & Stakeholder Communication**: Provide regular updates, manage expectations, and ensure client satisfaction throughout the project lifecycle.
- **Snagging & Handover**: Conduct inspections, manage snag lists, and ensure defect-free handover within agreed timelines.

**Key Achievements**

**Luxury, Commercial & Hospitality Projects**

- **Luxury Residential:** Spearheaded the construction and premium interior fit-out of a 30,000 sq. ft. luxury residence equipped with 7-star hotel amenities.
- **Corporate & Commercial:** Delivered a 300-person capacity corporate head office building and completed high-end interior fit-outs for 7 premium retail showrooms totaling 35,000 sq. ft.
- **Mega-Leisure Development:** Successfully constructed a convention center and farmhouse complex featuring extensive landscape engineering across a 5-acre area.

**Industrial Scale, Compliance & Infrastructure**

- **Large-Scale Construction:** Managed and delivered over 950,000 sq. ft. of industrial factory building construction.
- **Compliance & Green Certification:** Secured structural safety and green certifications for new facilities from leading international bodies, including RSC, Alliance, Nirapon/Elevate, Primark (Mott MacDonald), and LEED.
- **Structural Retrofitting:** Formulated and executed structural safety assessments, structural re-engineering, and spatial reorganization for 8 existing operational factory buildings.
- **Environmental Infrastructure:** Constructed critical specialized utility structures, including Effluent Treatment Plants (ETP), Water Treatment Plants (WTP), and Sewage Treatment Plants (STP).

3. **Organization:** The Delta Group of Industries **Designation:** Manager (Civil)
**Reporting To:** General Manager **Duration:** From August 2015 to March 2018
**Job Responsibilities:** **Job Location:** Kashimpur, Gazipur

- **Pre-Construction Planning**: Review design drawings, conduct feasibility assessments, and prepare execution strategies aligned with client goals.
- **Procurement Oversight**: Source materials and furnishings, negotiate contracts, and ensure timely delivery of long-lead items.
- **Technical Review & Value Engineering**: Analyze design and construction methods to propose cost-effective alternatives without compromising aesthetics or quality.
- **Progress Monitoring & Reporting**: Track milestones, prepare weekly/monthly progress reports, and flag potential delays with mitigation plans.
- **Stakeholder Coordination**: Facilitate communication between clients, consultants, contractors, and authorities to ensure smooth project flow.

- **Change Management**: Evaluate and implement design changes, variations, and scope adjustments with proper documentation and approvals.
- **Mock-Up & Sample Approvals**: Organize mock-up installations and sample reviews to validate design intent and finish quality.
- **Sustainability & Innovation**: Integrate eco-friendly materials and smart technologies into fit-out solutions where applicable.
- **Post-Handover Support**: Provide maintenance manuals, conduct training sessions, and support defect liability period (DLP) activities.

**Achievements:**

- Constructed 5nos showroom for garments display, 3 nos. Bank ATM both, 150-person factory office interior, Luxurious apartment interior fit-out, Firm house interior fit-out. Almost 5,50,000 sft new construction project management at different factory, Inspect existing Factory Structure, safety assessment, Organizing, Planning, Monitoring, repair and maintenance.

4. **Organization:** Srejanee Upadeshta Ltd. **Designation:** Civil Engineer
**Reporting To:** Project Manager **Duration:** From November 2009 to August 2015
**Job Responsibilities:** **Job Location:** Dhanmondi, Dhaka

- **Site Execution & Supervision**: Oversee daily fit-out activities, ensuring work is carried out as per approved drawings, specifications, and timelines.

- **Technical Coordination**: Collaborate with architects, MEP engineers, and subcontractors to resolve site-level design and execution challenges.
- **Material Inspection & Approval**: Verify quality and quantity of delivered materials, ensure proper storage, and approve samples/mock-ups.
- **Workforce Management**: Supervise labor teams, assign tasks, and monitor productivity to maintain project momentum.
- **Quality Assurance**: Conduct regular inspections to ensure high-quality finishes and adherence to safety and regulatory standards.
- **Progress Tracking**: Maintain daily site logs, prepare progress reports, and update project managers on milestones and delays.
- **Health & Safety Compliance**: Enforce safety protocols, conduct toolbox talks, and ensure PPE usage on site.
- **Snagging & Rectification**: Identify defects, prepare snag lists, and coordinate timely rectification before handover.
- **Site Measurements & BOQ Validation**: Take accurate measurements for quantity verification and assist in billing and invoicing processes.
- **Client & Consultant Coordination**: Support site visits, address queries, and implement feedback from client representatives and consultants.

**Achievements:**

- Supervise and implement international cricket stadium, Partners and population development secretariate office building interior fit-out, Lions hospital interior -fit out, Shamabay bank commercial project and around 10+ project site supervision and Inspection including 20-storied high rise project also. Prepared CAP with rectification with H&S guideline, Structural design of Steel & RCC structure, 100 nos cyclone shelter implementation in coastal belt of Bangladesh and many education project of Dhaka University.

**List of few Remarkable Implemented project in my carreer:**

i) Construction & interior fit-out of Triplex residential building with 7* facility (**Shajhbati Project windy group MD residence)** at Mohakhali, Dhaka.

ii) Interior fit-out of 12 nos. showroom for garments display under Windy Group and The Delta Group of Industries.

iii) Interior fit-out of 13 nos. Corporate and Factory office showroom for garments display.

iv) Construction & interior fit-out of 9-storied factory building, single storied shed, utility facility and compliance facility at Windy apparels limited at Pagar, Tongi area.

v) Construction & interior fit-out of different single storied shed, ETP, WTP, utility facility and compliance facility at Windy Washing limited at kachura, Dakhin khan, Dhaka.

vi) **Establishment 12 nos. sewing line garments factory project** with Construction & interior fit-out of 5-storied factory building vertical extension, retrofitting, single storied shed, utility facility and compliance facility at Windy apparels limited at Pagar, Tongi area.

vii) Construction & interior fit-out of **20-storied Residential Shahid Sheikh Russell Tower** Bhaban For the officers under University of Dhaka.

viii) Construction & Interior fit-out of 20-storied Bangabandhu Tower Building for Class-iv employers at shibbari of Dhaka University, Dhaka.

ix) Construction & Interior fit-out of 08-storied steel structure factory building under The Delta Group of Industry.

x) Construction of & Interior fit-out **8-storied Factory Building at Gazipur** under FLAXEN DRESS MAKER LTD.

xi) **Supervise** interior fit-out of **Shahjalal Fertilizer Project (SFP) 58 structure in one premises,** Fenchugonj, Sylhet. Under BCIC

xii) Interior fit-out of 10-Storied Hospital cum Health services Building with 2-basement of Bangladesh Lions Foundation.

xiii) Construction & interior fit-out of 10-storied building for Bangladesh bar association at Construction of 10-storied Modern Administration building with basement floor for Dhaka bar association.

xiv) Construction & interior fit-out of 11-storied new female Hall for 1000 female students (7th March Bhaban at Rokeya Hall Complex) of Dhaka University, Dhaka.

xv) Construction & interior fit-out of 100nos Multipurpose Cyclone Shelter at different site in the coastal belt of Bangladesh under Department of Digester Management (DDM).

xvi) Establishment new youth training center at remaining 11-district almost 55nos structure in the Bangladesh Under department of youth development.

xvii) Construction & interior fit-out of Hobigonj District Stadium & Chuadanga District Stadium and Further development of Mymensingh District Stadium

xviii) Construction & interior fit-out of 2 Nos. 9-storied Shopping cum Commercial building under Bangladesh Samabaya Bank Limited.

**Academic Qualification:**

1. Degree: Graduate / B.Sc. in Civil Engineering
   Passing year : 2014
   Subject: Civil Engineering

Institution : Institution of Engineers Bangladesh (IEB)
Result : 3.28 CGPA (out of 4.0)

2. Degree: Post Graduate Diploma in Risk and compliance management.
   Passing year : 2022
   Subject: Risk and compliance management.
   Institution : Edupro UK and ABP.
   Result : Pass in 2nd Class

3. Degree: Post Graduate Diploma in Project Management.
   Passing year : 2023
   Subject: Project Management
   Institution : Edupro UK and ABP.
   Result : Pass in 2nd Class

4. Degree: Diploma in Engineering.
   Passing year : 2010
   Subject: Mechanical / RAC
   Institution : Patuakhali Polytechnic Institute under Bangladesh Technical Education Board.
   Result : 3.73 CGPA (out of 4.0)

5. Degree: Secondary School Certificate
   Passing year : 2006
   Subject: Science
   Institution : Shahid Smerity Biddyaniketon Laukati Under Bangladesh Govt Barisal Board.
   Result : 3.13 GPA (out of 5.0)

**Membership: Member of IEB M-37010, IDEB-41663 and member of Lions International.**

**Professional Training & Workshops:**

- 03 months "industrial attachment training" conducted by trainer AVE Engineering & Constant Ltd.
- 06 months training on "ETABS and Staad pro (Structural software)" conducted by trainer APD.
- 06 month training on "AutoCAD drawings 2D & 3D" conducted by trainer APD
- 02 months training on "BNBC" conducted by trainer IEB.
- 12 hours online training on "Safety, BIM, Construction management and construction site management".
- 02 months training on "Auto Cad and Architectural Drawings" conducted by trainer APD.
- 02 months Training on BNBC from our professors

**Computer Skill:**
Auto Cad, ETABS, STAAD pro. SAFE, GEAR, Microsoft Office (Word, Excel, power point etc.), Adobe (Photo Shop, Illustrator), Internet browsing etc.
