PROFESSIONAL SUMMARY

Senior Technology Executive with 19+ years of experience leading enterprise strategy, digital transformation, cybersecurity, and operational modernization across multinational organizations in the consumer goods, agribusiness, chemicals, and manufacturing sectors. Proven ability to translate corporate objectives into scalable digital capabilities that improve performance, strengthen governance, optimize investments, and create measurable value. Extensive experience partnering with executive leadership, leading regional organizations, and delivering complex transformation programs across Southeast Asia. Recognized for building high-performing teams, modernizing enterprise platforms, managing risk, and fostering innovation that enables sustainable competitive advantage. Seeking a **Senior Executive** leadership opportunity to shape organizational strategy, accelerate transformation, and position digital capabilities as a catalyst for long-term business success, not just serving as a support function.

CORE COMPETENCIES

- **Executive IT Leadership & Business Transformation:** CIO Leadership, Digital Transformation, Board Reporting, P&L Ownership, IT Operating Model, Technology Roadmap, Change Management, Regional Leadership.
- **IT Governance, Risk & Compliance:** ITGC, Risk Management, Cybersecurity Governance, Data Governance, Audit Readiness, Regulatory Compliance, ISO 27001, Business Continuity, Disaster Recovery.
- **Enterprise Applications & Platforms:** SAP ECC and S/4HANA, SAP BW, ERP Transformation, Workflow Automation, Supply Chain Systems, Anaplan, Document Management, Finance Automation.
- **Infrastructure, Operations & Service Delivery:** Infrastructure Operations, Service Delivery, Cloud Migration, Network Modernization, End-User Computing, OT-IT Integration, Vendor Management, Managed Services.
- **Data, Analytics, AI & Industry 4.0:** Data Analytics, Power BI, Data Lakes, Generative AI, Predictive Analytics, RPA, Digital Twin, AVEVA PI, RFID, OPC-UA, SAP Plant Connectivity.
- **Architecture, Portfolio & Delivery Methodologies:** Enterprise Architecture, TOGAF 9.2, ITIL 4, PRINCE2, Agile Scrum, Program Management, Portfolio Management, Budget Management.

KEY ACHIEVEMENTS

- **Industry 4.0 Digital Twin Commissioning (2025):** Secured board approval (USD 547K) for UOI's first Digital Twin program, delivering USD 810K annual savings, USD 1.7M capacity upside, 148% ROI, and sub-one-year payback.
- **Financial Risk Mitigation & Automation (2024):** Identified USD 2.3M tax exposure and deployed a €221K transfer pricing automation solution, cutting cycle time from 11 days to under a week and eliminating a material compliance risk.
- **AI-Powered Vision Intelligence (2025):** Spearheaded design, funding, and commissioning of a 24/7 AI computer vision safety solution, automating PPE and forklift proximity monitoring and creating a scalable safety standard.
- **Logistics Intelligence Commissioning (2024):** Led a USD 103K logistics digitization program that scaled yard throughput from 150 to 500+ trucks per day, delivering 114% IRR, 0.87-year payback, and USD 126K annual savings.
- **Agricultural Technology Leadership (2020):** Directed the commercial rollout of ***GeoPotato***, an agri-tech platform combining satellite data, crop disease prediction, and SMS alerts, improving farm yields by up to 26%.
- **Inaugural ERP Command & Board-Level Delivery (2012):** Led the SAP ECC roll-out program across corporate headquarters, manufacturing units, and regional operations, with governance and status reported directly to the board.

PROFESSIONAL EXPERIENCE

Head of IT | PT. UNILEVER OLEOCHEMICAL INDONESIA | *Medan, North Sumatra, Indonesia* | Dec 2023 – June 2026

Lead enterprise IT strategy, infrastructure operations, cybersecurity governance, digital transformation, and technology portfolio delivery across Indonesia, Malaysia, Philippines, and India. Manage a cross-functional organization of 30+ FTEs, oversee multimillion-dollar programs aligned to business growth, and report directly to executive leadership and the Board of Directors.

- **OT-IT Integration & Connected Manufacturing:** Defined the OT-IT integration roadmap, enterprise architecture, and vendor strategy for OPC-UA and SAP Plant Connectivity (PCo), establishing the first live DCS-to-ERP data pipeline to support multi-plant connected manufacturing and real-time operational visibility.
- **Digital Twin, Analytics & Industry 4.0 Delivery:** Led end-to-end technical delivery of the Fatty Alcohol Digital Twin, including vendor selection, systems integration, process simulation, SPC database connectivity, and cloud analytics commissioning across the Marvel 3 manufacturing line.
- **Enterprise Automation & Process Efficiency:** Drove RPA-led automation across shipment cost processing, PO-SO integration, and finance reporting through SAP-enabled workflows, reducing manual effort, improving controls, and releasing significant capacity for supply chain and finance teams.

- **Cybersecurity, Audit & Business Continuity:** Directed audit remediation through a EUR 280K DCS hardware and software modernization program, resolved end-of-life technology risks, and implemented a cloud-based business continuity and disaster recovery solution that closed critical audit observations and restored compliance.
- **Data Governance, BI & Enterprise Platforms:** Assumed execution ownership over the plant-wide Safety Intelligence Platform by deploying a board-visible UDL/Power BI safety platform, leading AVEVA PI implementation with 3,000+ live tags across 5 plants, implementing a document management system that reduced cycle time by 55%, and delivering an enterprise e-budgeting platform across all departments.
- **Logistics Digitization & Platform Modernization:** Managed the replication and full feature enhancement of the mission-critical Electronic Vehicle Control Form (E-VCF) system, through vendor governance, feature redesign, and integration of electronic shipping documentation, role-based access controls, and SAP PO/DN/SO data feeds for shipping operations.
- **Regional S&OP Transformation:** Led a four-country S&OP transformation by activating SAP MRP, overseeing Anaplan deployment that improved forecast accuracy by 40%–50%, and enforcing master data harmonization across Indonesia, Malaysia, Philippines, and India.

BAYER CROPSCIENCE LIMITED | Country IT Manager | *Dhaka, Bangladesh* | Oct 2016 – Nov 2023

Directed country IT strategy, IT operations, enterprise applications, infrastructure, service delivery, and technology P&L across Bangladesh and Myanmar. Served as the designated IT leader on the South Asia Management Committee, partnering with the Global PMO and Digital Transformation IT teams on regional transformation priorities.

- **SAP S/4HANA Program Leadership:** Appointed country lead for the **SAP S/4HANA deployment**, managing delivery timelines, local process alignment, stakeholder engagement, change readiness, and integration of demand sensing and commercial finance capabilities into the APAC enterprise architecture.
- **Commercial Digital Platforms & Enterprise Reporting:** Led the design, development, and enterprise rollout of ***BizOptimum*** for SAP BW-enabled management reporting and ***SHAKO Retail Connect*** for invoice routing and distributor inventory visibility, achieving on-time delivery and full business adoption.
- **Process Reengineering & Operational Efficiency:** Reengineered the order-to-invoice process through cross-functional process analysis, solution design, and implementation, reclaiming 800+ hours of annual operational capacity, accelerating cash-flow velocity, and presenting outcomes to regional leadership.

EARLY CAREER: March 2007 to October 2016

LAUGFS GAS (BANGLADESH) LIMITED | IT Manager (Head of IT Dept.) | *Dhaka, Bangladesh* | Oct 2015 – Oct 2016

- Built the country's IT Dept. from scratch as the first IT Lead for a newly established Sri Lankan LPG business in Bangladesh, establishing core infrastructure, governance, service delivery, and operational controls for market launch.

ACI GODREJ AGROVET PRIVATE LIMITED | IT In-Charge (Head of IT Dept.) | *Dhaka, Bangladesh* | Apr 2012 – Oct 2015

- Served as IT Lead for the company's first SAP transformation, managing IT service delivery across 12 locations, overseeing BASIS administration, coordinating user readiness, and aligning implementation activities with Godrej Group HQ.

OROGENIC RESOURCES (BD) LIMITED | Senior Executive – IT & Projects | *Dhaka, Bangladesh* | Mar 2007 – Apr 2012

- Led country's first 3G SIM card, intl. tender for TELETALK in 2012 (with Oberthur Technologies). Also, led the digitization of 0.5 million banking records for BRAC Bank, delivering end-to-end program execution from project design through implementation.
