At A Glance My Career:

This is A.K.M. Jahangir Alam, COO, operation of SANMAR Properties ltd . I would like to inform you that I have at least 32 years practical operational experience in the real estate business & others business also.

As COO in SANMAR PROPERTIES LTD, basically I look over all of the 22 departments and their heads report to me directly regarding daily operations in both Dhaka and Chittagong, I'm accountable for mainly revenue growth, business development growth, inventory growth, HR growth, operational growth, CRM growth, market & branding growth as per ABP'2023 and new industry expansion for building materials products like RMC casting, Ready mix concrete products AAC block plants,

Working as an MD operation in Rupayan Housing Estate where I look after the day to day operational functions & activities of all the departments through all the departmental heads. I also monitor, control, supervise, organize, manage, evaluate & direct all departmental head and they have done their day to day duties under my direct command and control & they also report to me directly.
I have a lot of real estate operational experience in **BTI, RHL & Concord** Companies.

I have worked as a GM for more than 10 years in **Concord Group** where I looked after operations, functions & activities of all the departments.

Worked as an ED in BTI I looked after operations of business development department

I also worked as a Deputy National Sales Manager in the **Nestle Bangladesh Ltd**. where I had directly controlled, monitored, supervised the day to day operational duties, function & activities of all the sales related departments. .

It is also very clear to you that I have a lot of practical experience in both **MNC & NC** of real estate developer companies and other companies. So, if you kindly consider me & provide me as a MANAGEMENT POSITION of your name, fame & good reputed company where I want to look after the day to day operations, functions & activities of all departments in your company.
I have mentioned my present & past experiences in my CV.

OPERATIONAL EXPERIENCE:

(Present Experience)

I have a unique combination of management style, leadership quality & strong personality with creativity, initiation & clear concept of operational activities & functions and have proven track record of long time experience in the field of the real estate business. I have sound

management knowledge and practical experiences in the real estate operational function. For a long time I have been directly controlling, monitoring, supervising, organizing, managing, evaluating & directing to the target achiever & result oriented strong operational team of all departmental heads. A well trained, disciplined, experienced, strong confident & highly professional departmental heads team have done their daily operational functions & decisions under my direct supervision & command and they also report to me directly. All the departmental heads look after their day to day operational functions & activities against their respective departments of Sales & Marketing dept. CR & registration dept., Land dept. Rajuk dept., Construction dept., Contacting dept., QC dept., CSD dept., Maintenance dept., Procurement & Supply chain dept., Cost & Budget dept., Bill dept. Audit dept., Accounts dept., Utility dept., Design development dept., Legal dept., HR dept., Administration dept., Security dept., Transport dept., & IT dept.

EXPERIENCE IN SALES,

I have experience in sales training, multinational sales style & extensive field experience. I established a sound management system & created an excellent interpersonal relationship between management & sales team. To develop sales skill, sales performance & sales technique of salesmanship, I arranged in-house sales training for my sales team. For increasing the sales volume, I motivated my sales team through offering a challenging sales incentives program. I selected the best sales performer from my sales team on the basis of target achievement, highly motivated personality, regulatory & discipline. I prepared, compared & revised the monthly & yearly actual sales & target sales .I organized, managed, controlled, monitored & supervised a strong target achiever & result oriented sales team. I looked after sales policy, sales forecast, sales budget, sales promotion, market coverage plan, distribution network, monthly & yearly sales target, target vs achievement analysis, salesman performance evaluation, products wise sales analysis, daily call report check, weekly, monthly & yearly sales report, retailer record card check, product width, product depth, product height, SKU, merchandising, yearly sales & dealer conference & after sales service.

LED COLLECTION EXPERIENCE:

Many new developers, small developers, big developers, known-unknown developers, reputed & unreported developers are worked in the same market where always happening unhealthy competitions each other to collect new data of the land owner and flat buyer that's why I avoid this situation I prepare a incentives policy for the existing land owner & flat owner and in house employee who will give us new data of land owner & flat buyer we shall give cash incentives for in house employee and gift items for existing land owner & flat buyer. We also placed land wanted signboards in the ongoing projects for interested prospective land owners and flat buyers. Sometimes we give paper 'ad' but the response is very poor.

EXPERIENCE IN MARKETING:

I have a unique combination of managerial style, leadership quality & strong personality with creativity, initiation & clear concept of marketing functions and have proven track record of long time experience in the field. I have sound management knowledge and practical experience in marketing plan, marketing strategy, marketing research, market survey, market feedback analysis, MIS, target market, target group, marketing forecast, marketing cost-benefit analysis, marketing demand, promotion mix, products knowledge, products promotion, products development, products launch, products drive, products bonus scheme, POS materials & merchandising.

EXPERIENCE IN MARKETING INTELLIGENCE:

Before taking land or fixing up the selling price for a project we follow the market intelligence. Marketing intelligence is the mirror of the present market where we can see the market position, Market status, Market trend, competitor's activities and competitor's price. Marketing intelligence plays a key role of Real estate business.

EXPERIENCE IN PRICE FIXATION:

Price review committee fixes up the new price. Before fixing up the selling price we make a survey on location, position, facing, size, features, benefits, advantages, disadvantages stories, competitor's price and based on field survey we find out a price range. Finally the price review committee (PRC) sits together and fixes up the selling price for a project on the basis of construction cost & marketing intelligence. PRC consists of two members of the business development department and sales departments each. I am also an active member of PRC.

EXPERIENCE ON BRANDING & QUALITY:

I also have practical experience in this area. Regular basis I collect market rates of construction materials, finishing materials, interior materials and technical materials from the manufacturer, supplier, dealer, stockiest and agent in the home market as well as foreign market. The core cost involvement item of Real estate business is the total construction materials. No compromise with the quality that's why quality products and branded products are used in the project and this is one of the main branding for Real estate businesses. I always conscious about the QUALITY regarding product, construction, design and workmanship, COMMITMENT regarding project completion time, payment schedule, product specification, TRANSPARENT regarding design, legal documents of DOA & POA, land purity, SERVICE regarding before service, post service and after service and BRANDING. This is a very important issue for the Real estate business.

EXPERIENCE IN BUSINESS DEVELOPMENT:

Land development under Govt's Rules & Regulation where I have practical knowledge & clear concept on 'FAR' calculation, DAP, CAB, KPI, NHA,WM, Cantonment Board (CB) and Rajuk rules and regulation; according to these rules I calculate & prepare the total built up area, layout plan, schematic drawing & final architecture design for getting Rajuk Approval. Price Fixation - before fixing up the selling price the price fixation review committee make a survey on location, position, facing, size, features, benefits, advantages, disadvantages, stories, competitor's price and basis on this field survey report, construction costing report & marketing intelligence report the price review committee fixes up the selling price for a new project. Land Documents Vetting - before signing the land at first I check myself the land documents and then I vet lease hold land from Rajuk or CB or NHA or ministry of works and for free hold land or private Housing hold land I vetted from AC land office properly. And finally I collect legal vetting from the company's panel lawyer. DOA, POA Sign with the Lo - after getting legal vetting from lawyer I prepare standard DOA & POA according to the negotiated terms & conditions with the land owner and after then sign & register it from sub-register office directly or through commissioning by the representative of sub-register Introducing Ceremony - After signing the land within a week we arrange a introducing ceremony in our office where we introduce the land owner with the design team, Construction

team and CSD team and each team will give their own service to the land owner respectively till completion of the project.

EXTENSIVE FIELD EXPERIENCE:

I have a lot of practical field experience in our country. I frequently visited all district markets and its pocket market & territory market.

I managed & controlled the market with responsibility for sales, target, distribution, sales report, merchandising & promoting and worked very closely with the sales team, distributor, wholesalers & retailers & set up distributors in gap areas.

As a part of my fieldwork my main objectives are to visit the distributors warehouse, showroom & always motivated to the distributors & his sales staff on how to make more profit, how to maintain sales record files, how to analyze cost benefit and how to manage, supervise & develop the distributorship business, during my visit, I worked with retailers, wholesalers, stockiest, hotel users & institutional users and back checked the merchandising, products off take, sales position, market position & sales man feedback,

Not only that, I also arranged the sales meeting with the distributors & sales regarding distributor's target achievement, branch sales position & sales team performance and worked in the field with ready stock for collecting more orders from retailers & wholesalers. I participated in the DITF, REHAB fair, World Habitat Fair & Shilpo mela where I directly sold our products to the customers. I prepared a competitor's profile for our marketing research cell.

And lastly I want to say that a well-trained, disciplined, experienced & strong confident sales team has done their duties under my direct supervision.

Key Areas of My Expertise in Real Estate Business:

Very recently, the construction industry is one of the most growing industries in Bangladesh where real estate business is very much growing up and where I have lots of practical experience, sound knowledge, and strong command and under control Real estate business policies are totally team work process which are associated with Landowners, flat buyers, Marketing team, Sales team, Customer service team, Design and consultant team, Technical and construction team, contractors, masons, suppliers and Ad agencies, all are above can kept a strong role in achieving the goal of Real estate business as well as project completion and handover to the Land owners and flat buyers in schedule time. The market segmentation of this products are high Govt. officials of Civil and Defense, Businessmen, Industrialist, Doctors, Engineers, Professors, Bankers, NGOS, Political persons & social elite persons, all are the most valuable major target customer group and mainly they are the real end users of these products For customer (Land owners & flat buyers) satisfaction the management always be conscious of some core sensitive factors which are better quality, commitment, transparent, competitive price, home service, before service, post service and after sales service. These above are the core marketing strategy of the Real Estate Business where I have practical experience, sound knowledge, strong command and controlled in Construction Operation, materials estimation, cost analysis, negotiation with land owners & target group/customer group, before sales, post sales, after sales service, utility service, total construction material used and have good relationship with different professionalize like Engineers, Doctors, Professors, High Officials, Business Group, Industrialist, Social Elite and Political persons. Sound relationship & mutual understanding with above all concern as well as have good

communication with different professionalize like Engineers, Doctors, Professors, High Govt. Officials of civil & defense, Businessmen, Industrialist, Social elite persons & Political persons whose are always helping for implementing & achieving the marketing & sales strategies, policies & objectives/targets, at the same time the facts is that it is created best opportunity for me to establish myself as a "marketing expert" of these products in the market. And this is my only asset.

EXPERIENCE IN HRM:

Beside sales & marketing I have also experience in manpower planning, recruitment, selection, orientation, placement, training, In-house training, performance evaluation, promotion, demotion, transfer, leave wages, salary structures, organizational structure, job description, job satisfaction, job environment, job permanent & employee profile.

MAJOR RESEARCH WORKS:

I have gathered a lot of practical experience in research work on marketing, market survey, market study, sales promotion, product promotion of FMC products, industrial products & construction materials under NESTLE, JAMUNA & CONCORD.

PARTICIPATION IN FAIR & EXHIBITION:

I have participated in different types of fair & exhibition namely DITF, IAB fair, REHAB fair, World Habitat Day fair & Shilpo Mela where I have directly sold products to the customers. Actually any fair or exhibitions especially REHAB & DITF is the biggest promotional platform for promoting a product marketing where manufacturers & end users are directly interacting with each other. Not only that, both can exchange their views on products regarding quality, service, financial benefit, advantages & disadvantages.

SALES TRAINING EXPERIENCE:

My companies were always conscious to develop the managerial skill & leadership style among the managers & for this reason they arranged the sales training program through professional training institutes & in-house training centers. These training programs were conducted by Nestle Bangladesh Ltd. Concord Group, BTI Ltd.
