MD HAFIZ AL ASAD

House 50, Road 12, Sector 13, Uttara, Dhaka
01610333777
hafiz5733@gmail.com

Career Objective:

Lead to succeed, as a visionary leader.

Career Summary:

• A visionary leader, with 25+ years of experience in Shanta Holdings Ltd., Epyllion Group, Beximco Pharma, UN, and Bangladesh Army.• Core Competency: Leadership, Project Management, and Engineering.• 100+ Engineering Projects in private and government sectors budgeting $4000 mn+.• MBA, IBA, DU, (1st, 4.00/4.00), B.Sc. in Civil Engineering, MIST (1st, 3.98/4.00), 1st in HSC (94.4%), and 4th in SSC (92%).• PMP from PMI, USA, CSCM from ISCEA, USA, PGDSCM, and PGDHRM from ABP, UK

Special Qualification:

Leadership, Strategic Management, Project Management, Engineering, Planning, Team Building, Organizational Development

Employment History:

Total year of experience: 27.9 yrs

1. Chief Project Management Officer (3.2yrs)

(2 Jul 2023 - Continuing)

Shanta Holdings Ltd.

Area of Expertise:

Project Management (0.0 yr)

Duties/Responsibilities

Key Responsibilities:

• Develop and communicate comprehensive project management strategies aligned with Shanta Holdings Limited`s goals, encompassing all residential, commercial, and construction projects.

• Direct the entire company project portfolio, strategically prioritizing project initiatives across all engineering disciplines (including civil, MEP, and others) in alignment with organizational

objectives.

• Implement highly effective time management strategies across all projects, emphasizing rigorous monitoring and control measures to ensure on-time delivery of all projects, consistently meeting customer satisfaction benchmarks.

• Exercise precise financial control by managing project budgets, implementing cost optimization, and driving value engineering initiatives to ensure within-budget completion of all projects.

• Spearhead the implementation of robust Quality Assurance (QA) policies, fostering an unwavering culture of safety, and ensuring strict compliance with safety SOPs throughout the entire project management endeavours.

• Allocate resources efficiently and strategically across the diverse spectrum of projects, optimizing utilization and ensuring alignment with project requirements and timelines.

• Identify and manage risks at a portfolio level, including those associated with residential, commercial, and construction projects, and implement proactive mitigation strategies.

• Foster and maintain relationships with key stakeholders across all projects of the company, ensuring their needs and expectations are addressed throughout project lifecycles.

• Provide regular and comprehensive project updates to executive leadership and the board, ensuring transparent communication and alignment with organizational goals for all projects.

• Carry out any other jobs, as assigned by management.

2. Chief Project Management Officer (CPMO) (0.8yrs)

(16 Oct 2022 - 30 Jun 2023)

Epyllion Group

Area of Expertise:

Project Management (0.1 yr), Strategic Management (0.1 yr), Engineering (0.7 yr)

Duties/Responsibilities

Key Responsibilities:

• Create and implement best practice engineering and project management strategy, policies, processes, and procedures to meet business objectives and operational needs, which enables the group to compete effectively in the market.

• Responsible for management of project functions including but not limited to project management, construction management, engineering, project procurement, and supply chain management to meet project(s) objectives.

• Ensure preparation, monitoring, and control of all engineering and project management budgets, schedules, and execution plans.

• Directs in developing milestones towards achieving the end date of targeted projects and taking necessary actions to ensure those milestones are achieved.

• Establish a sound relationship with key project stakeholders to facilitate coordination and execution of engineering and project works, such that the operational impact is minimized.

• Provide leadership, coaching, mentoring, and training to the team, enabling them to achieve functional and financial metrics within their areas of responsibility and succeed in their roles.

Achievements:

• Successfully completed total 10+ Capital and 150+ BMRE Projects, budgeting BDT 500 Crore+ for the group, with a net cost savings of BDT 50 Crore+.

• Smooth planning, design, and execution of construction works of EKWL Highway Unit Project (4,50,000 Sq Ft, budgeting $35 Mn) and handing over 2 months before the scheduled timeline.

• Introducing project management culture in the group, leading to the conversion of EPM into a vibrant and enthusiastic team.

3. General Manager (GM) and Head of Engineering and Project Management (EPM) (4.0yrs)

(1 Nov 2018 - 15 Oct 2022)

Epyllion Group

Area of Expertise:

Strategic Management (1.3 yr), Engineering (1.5 yr), Project Management (3.3 yr)

Duties/Responsibilities

Key Responsibilities:

• Create and implement best practice engineering and project management strategy, policies, processes, and procedures to meet business objectives and operational needs, which enables the group to compete effectively in the market.

• Responsible for management of project functions including but not limited to project management, construction management, engineering, project procurement, and supply chain management to meet project(s) objectives.

• Ensure preparation, monitoring, and control of all engineering and project management budgets, schedules, and execution plans.

• Directs in developing milestones towards achieving the end date of targeted projects and taking necessary actions to ensure those milestones are achieved.

• Establish a sound relationship with key project stakeholders to facilitate coordination and execution of engineering and project works, such that the operational impact is minimized.

• Provide leadership, coaching, mentoring, and training to the team, enabling them to achieve functional and financial metrics within their areas of responsibility and succeed in their roles.

Achievements:

• Successfully completed total 10+ Capital and 150+ BMRE Projects, budgeting BDT 500 Crore+ for the group, with a net cost savings of BDT 50 Crore+.

• Smooth planning, design, and execution of construction works of EKWL Highway Unit Project (4,50,000 Sq Ft, budgeting $35 Mn) and handing over 2 months before the scheduled timeline.

• Introducing project management culture in the group, leading to the conversion of EPM into a vibrant and enthusiastic team.

4. Deputy General Manager (DGM) and Head of Engineering and Project Management (EPM) (0.5yrs)

(1 May 2018 - 30 Oct 2018)

Epyllion Group

Area of Expertise:

Project Management (0.1 yr), Engineering (0.1 yr), Strategy Development (0.1 yr)

Duties/Responsibilities

Key Responsibilities:

• Create and implement best practice engineering and project management strategy, policies, processes, and procedures to meet business objectives and operational needs, which enables the group to compete effectively in the market.

• Responsible for management of project functions including but not limited to project management, construction management, engineering, project procurement, and supply chain management to meet project(s) objectives.

• Smooth planning, design, and execution of construction works of EKWL Highway Unit Project (4,50,000 Sq Ft, budgeting $35 Mn) and handing over 2 months before the scheduled timeline.

• Introducing project management culture in the group, leading to the conversion of EPM into a vibrant and enthusiastic team.

5. Sr. Manager, Engineering Projects (0.8yrs)

(1 Jul 2017 - 30 Apr 2018)

Beximco Pharmaceuticals Ltd.

Area of Expertise:

Project Management (0.3 yr), Engineering (0.3 yr), Strategy Development (0.3 yr)

Duties/Responsibilities

Key Responsibilities

• Responsible for project management and program management comprising key projects of company.

• Responsible for coordination of all project activities of Beximco Chemical Division (BCD); tracking, monitoring and controlling and timely completion of projects.

• Define project scope in collaboration with top management, project owners and stakeholders.

• Prepare project management plan (in coordination and collaboration with all stakeholders), which identifies and sequences the activities along with a time line, needed to successfully complete the project.

• Responsible for organizing weekly and monthly project coordination meeting with project stakeholders; track and monitor project progress and circulate minutes of meeting (MOM) in order to establish a uniform knowledge base of project stakeholders.

• Keep track of the activities of all projects, so that the works are being completed well in time. In case of any unavoidable circumstances, if the project is likely to be delayed, find out root causes of delay and inform it to management, well in time.

• Maintain liaison and coordination with consultants, designers, suppliers, executing company or any appropriate individual, department or company in order to maintain projects timeline and prevent delay.

• Review the quality of works completed with project team periodically to ensure that it meets project standards.

Achievements

• Successful project management of API Manufacturing Facility (AMF) Project in collaboration with Dr. Reddy's Laboratories Ltd. (DRL), India, Central Amenities Building (CAB) Project and Learning and Development Centre (L&DC) Project budgeting >$13 Mn.

• Project coordination, monitoring & control and maintaining progress of Unit 03 Project, AMF Project, CAB Project, mDPI and DPI Expansion Project, Nasal Spray and Microbiology Laboratory Project, Track I Capacity Expansion Project, WMS Project, API Park Project, Suktara Printers Project and Sterile Project at Sri Lanka.

6. Manager, Engineering Projects (2.2yrs)

(1 May 2015 - 30 Jun 2017)

Beximco Pharmaceuticals Ltd.

Area of Expertise:

Project Management (0.7 yr), Engineering (0.7 yr), Project Coordination (0.7 yr)

Duties/Responsibilities

Key Responsibilities

• Responsible for coordination of all project activities of Beximco Chemical Division (BCD); tracking, monitoring and controlling and timely completion of projects.

• Define project scope in collaboration with top management, project owners and stakeholders.

• Prepare project management plan, which identifies and sequences the activities along with a time line, needed to successfully complete the project.

• Responsible for organizing weekly and monthly project coordination meeting with project stakeholders; track and monitor project progress and circulate minutes of meeting (MOM) in order to establish a uniform knowledge base of project stakeholders.

• Keep track of the activities of all projects, so that the works are being completed well in time. In case of any unavoidable circumstances, if the project is likely to be delayed, find out root causes of delay and inform it to management well in time.

• Maintain liaison and coordination with consultants, designers, suppliers, executing company or any appropriate individual, department or company in order to maintain the timeline of projects and prevent delay.

• Review the quality of works completed with project team on a regular basis to ensure that it meets project standards.

Achievements

• Managing and coordinating all projects of Beximco Pharma for more than 02 years in this role budgeting >$500 mn.

• Directly contributing to completion of Unit 03 Project's (a mega project of 7 lac sq ft area) civil

works, 06 months before scheduled deadline.

• Key leadership roles to streamline organizational system complexities, leading to direct value addition to company bottom line.

• Developing a project management culture in the company by introducing project monitoring and control function, maintaining project schedules, updating progress and conducting periodic project coordination meetings.

7. Director, Civil Engineering Projects (2.4yrs)

(20 Dec 2012 - 30 Apr 2015)

Special Works Organization-West, Bangladesh Army

Area of Expertise:

Operation & Maintenance (0.8 yr), Project Management (0.8 yr), Factory/ Plant/ Facility Management (0.8 yr)

Duties/Responsibilities

Key Responsibilities:

• Technical adviser about planning, designing, and execution of all engineering works carried out by the Organization.

• Exercising proper control and technical supervision of all projects executed by the units of the Organization to ensure that the quality of material and works are as per specification.

• Maintaining up-to-date records of the progress of works, both the physical and financial state of all projects.

• Monitor that the funds placed against all projects are properly utilized and the expenditures are made as per the Project Execution/Implementation Policy.

• Liaise with various government agencies and the Planning Commission of the Government of Bangladesh for smooth funding and execution of different projects.

• Provide technical advice regarding design, construction, or program modifications and structural repairs to industrial and managerial personnel.

• Planning, control, monitoring, supervision, and coordination of Civil Engineering Projects.

• Managing contracts and sub-contract of different civil engineering projects with various levels of contractors.

• Organize technical examination of selected sample specimens of engineering materials used in the project works and plan technical training of all ranks related to the engineering works.

Achievements:

• Successfully launching the preliminary phase works of the Padma Multipurpose Bridge Project (PMBP) budgeting $3,000 million.

• Supervising and providing technical advice in implementing the Rehabilitation of the Existing Meghna and Meghna-Gumti Bridge Project budgeting $54.5 million.

• Organizing different national level event management like the Inauguration ceremony of Banani Overpass, Hatirjheel and Begunbari Integrated Project, Mirpur-Airport Flyover Project, and Rehabilitation of Existing Meghna and Meghna-Gumti Bridge Project.

8. Instructor Class B (0.9yrs)

(1 Feb 2012 - 19 Dec 2012)

School of Infantry and Tactics (SI&T), Bangladesh Army

Area of Expertise:

Teaching/ Training (0.3 yr), Education Administration/ Management (0.3 yr), Education Research (0.3 yr)

Duties/Responsibilities

Key Responsibilities:

• Served as Instructor Class B in the School of Infantry & Tactics (SI&T), which is one of the top-ranking training institutions of the Bangladesh Army.

• Managed training of Officers and Soldiers of the Bangladesh Army during different training courses.

• Conducting different indoor and outdoor exercises for the trainee students as part of their training program.

• Organized and attended joint training programs with the United States (U.S.) Army and Officers of Bangladesh Army, for capacity building.

• Carried out performance appraisal and evaluation of trainee officers and troops at the end of the training courses.

Achievements:

• Successfully performed the responsibilities of an Engineering Directing Staff for executing the Engineering roles and responsibilities in accomplishing the overall training events of the organization.

• As an instructor, successfully conducted 2 Army-level training courses for the Officers and Soldiers of the Bangladesh Army where my role was a combination of the trainer, counselor, supervisor, coordinator, and manager.

9. Engineering Instructor Class B (3.5yrs)

(1 Aug 2008 - 31 Jan 2012)

Engineering Centre and School of Military Engineering (ECSME), Bangladesh Army

Area of Expertise:

Teaching/ Training (1.1 yr), Education Administration/ Management (1.1 yr), Education Research (1.1 yr)

Duties/Responsibilities

• Served as Instructor Class B in School of Military Engineering (SME), which is one of the top ranking engineering training institutions of Bangladesh Army.

• Managed training of Officers and Soldiers of Bangladesh Army, Bangladesh Navy and Bangladesh Air Force during different training courses.

• Conducting different training classes, seminars and workshops on various topics of Military Engineering and Civil Engineering subjects.

• Conducting different indoor and outdoor exercises to the trainee students as part of their training program.

• Carried out performance appraisal and evaluation of trainee officers and troops at the end of the training courses.

Achievements:

• Successfully performed the responsibilities of an Engineering Directing Staff for executing the Engineering roles and responsibilities in accomplishing the overall training events of the organization.

• As an instructor, successfully conducted 3 Army level training courses of the Officers' and Soldiers of Bangladesh Army; where my role was a combination of trainer, counselor, supervisor, coordinator and a manager.

• Successfully conducted the enrollment of troops in the corps of engineers of Bangladesh Army.

• Successfully organized seminars, workshops and training visits within and outside Bangladesh Army.

10. Engineering Logistics Officer (1.3yrs)

(1 Apr 2007 - 31 Jul 2008)

10 Riverine Engineer Battalion, Bangladesh Army

Area of Expertise:

Supply Chain Management (0.4 yr), Logistic (0.4 yr), Distribution (0.4 yr)

Duties/Responsibilities

• Organized and supervised the technical aspects of the engineering construction works in the unit.

• Performing technical inspection of vessels, pontoons and other engineering equipment.

• Logistics management of troops including foods, accommodation, health & sanitation and treatment in unit level.

• Organizing and conducting different training events, seminars and workshops in Bangladesh Army.

• Personal management, organizational management, human resource management and operational management of troops.

Achievements:

• Successfully organized and supervised the technical aspects of 14 different Engineering Construction Project Works in the unit.

• Successfully managed the logistic and administrative affairs of 500+ troops for tenure of 2.5 years, staying in Postogola Cantonment, Dhaka.

• Leaded 9 teams in Inter Unit Assault Course Competition, Drill Competition, Bayonet Fighting Competition, Firing Competition, Hockey Competition and Swimming Competition; and the unit became champion in 7 times and runner up for 2 times within the brigade.

11. Project Engineer (1.4yrs)

(1 Nov 2005 - 31 Mar 2007)

Bangladesh Engineering Company-5 (Multi Role), United Nations Mission, Liberia (UNMIL)

Area of Expertise:

Operation & Maintenance (0.4 yr), Survey (0.4 yr), Project Management (0.4 yr)

Duties/Responsibilities

• Performing as Project Manager in the construction, repair and maintenance of roads, bridges, airfields and different structures in Liberia.

• Ensuring the opening and keeping opened the lines of communication within different areas of Liberia during inclement weather, adverse situation and environment.

• Receiving and issuing various engineering construction materials for utilizing those in different engineering projects rationally in a most cost effective manner.

• Performing operational and logistics responsibilities as Battalion Adjutant and Quarter Master (QM).

• Maintaining wide-ranging liaisons and coordination with multi-national military and non-military UN representatives and officials for implementing different engineering projects.

Achievements:

• Successfully completed numerous engineering construction, repair and maintenance projects of roads, bridges, airfields and structures, in an International Environment involving various engineering plants and equipment.

• Successfully completed the construction work of 6 km long hilly road in Liberia, as part of opening up of lines of communication through the hilly terrain.

• Under my direct supervision and monitoring, the Bangladesh Engineer Company-5 (Multi Role) became the best organization among all the participating organizations of United Nations (UN).

12. Instructor Class B (0.6yrs)

(1 Apr 2005 - 31 Oct 2005)

School of Infantry and Tactics (SI&T), Bangladesh Army

Area of Expertise:

Teaching/ Training (0.2 yr), Education Administration/ Management (0.2 yr), Education Research (0.2 yr)

Duties/Responsibilities

• Served as Instructor Class B in School of Infantry & Tactics (SI&T), which is one of the top ranking training institutions of Bangladesh Army.

• Managed training of Officers and Soldiers of Bangladesh Army during different training courses.

• Conducting different indoor and outdoor exercises to the trainee students as part of their training program.

• Carried out performance appraisal and evaluation of trainee officers and troops at the end of the training courses.

• Event management as part of different training and social activities.

Achievements:

• Successfully performed the responsibilities of an Engineering Directing Staff for executing the Engineering roles and responsibilities in accomplishing the overall training events of the organization.

• As an instructor, successfully conducted 3 Army level training courses of the Officers' and Soldiers of Bangladesh Army; where my role was a combination of trainer, counselor, supervisor, coordinator and a manager.

13. Military Engineer (6.3yrs)

(1 Jan 1999 - 31 Mar 2005)

8 Engineer Battalion, Bangladesh Army

Area of Expertise:

Planning (2.0 yr), Operation & Maintenance (2.0 yr), Project Management (2.0 yr)

Duties/Responsibilities

• Performing as sub-unit commander in different levels of appointments to discharge different engineering duties and responsibilities.

• Exercising command and leadership with the under command soldiers in military services while performing different engineering roles and responsibilities.

• Personal management & human resource management of troops, organizational development & operational management of the engineering unit.

• Organizing and conducting different engineering training activities of the troops in the unit.

• Performing as a manager in different event management like organizing Inter Unit Competitions within Brigade level, Division level, Army level and National level etc.

Achievements:

• Leaded 15 teams in Inter Unit Assault Course Competition, Drill Competition, Bayonet Fighting Competition, Firing Competition, Hockey Competition and Swimming Competition; and the team became champion in 11 times and runner up for 4 times within the brigade.

• Successfully managed the logistic and administrative affairs of 1000+ troops for tenure of 4.5 years, staying in Dhaka Cantonment.

Academic Qualification:

Exam Title	Concentration/ Major	Institute	Result	Pass.Year	Duration
Master of Business Administration (MBA)	Technology and Operations	Institute of Business Administration (IBA), University of Dhaka	CGPA :4 (out of 4)	2016	2015-2016
Bachelor of Science (BSc)	Civil Engineering	Military Institute of Science and Technology (MIST)	CGPA : 3.98 (out of 4)	2012	2008-2012
HSC	Science	Barisal Cadet College (BCC)	First Class Marks: 94.4%	1998	1997-1998
SSC	Science	Barisal Cadet College (BCC)	First Class Marks: 92%	1996	1994-1996

Training Summary:

Training Title	Topic	Institute	Country	Location	Year	Duration
Plumbing Technology	Plumbing System	Engineering Staff College	Bangladesh	Dhaka	2013	Jan

Occupational Safety, Health & Environment Management	Occupational Safety, Environment	Engineering Staff College	Bangladesh	Dhaka	2013	Feb
Measures That Matters - Balanced Scorecard	Balanced Scorecard, KPI	Gray Matters Consulting	India	Dhaka	2015	Jun
Leading Self for Results	Motivation, Results	HRX Consulting	United Kingdom	Dhaka	2015	Oct
