Sreepur Chowrasta, Sreepur, Gazipur, Bangladesh

EDUCATION

Bachelor of Science (BSc) | 2012
Atish Dipankar University of Science & Technology
Major: Electrical & Electronics Engineering
CGPA: 3.50 out of 4.00

Diploma in Engineering | 2008
Rajshahi Polytechnic Institute, Rajshahi
Major: Electrical
CGPA: 3.36 out of 5.00

Secondary School Certificate (SSC) | 2004
Agrani School & College, Rajshahi
Group: Electronics
GPA: 4.64 out of 5.00

CORE SKILLS

- Electrical Single Line Diagram (SLD)
- Electrical Layout Planning
- Sub Station Design & Load Management System
- Diesel & Gas Generator Installation, Testing and Commissioning
- BBT (Bus BarTrunking System) Designing
- LPS (Lighting Protection System) Designing
- Boiler Installation, Testing and Commissioning
- 2 MW On-grid Solar system design and installation.
- Electrical Safety plan
- Electrical Safety Audit: RSC, SADEX, BSCI, NIRAPON etc.
- Maintenance and Troubleshooting
- Technical Analysis
- Preventive Maintenance
- Breakdown Maintenance
- Project Planning & Team Management
- Documentation and Reporting

Engr. AB Siddik

A dedicated and skilled engineering professional with over 15 years of experience in (Maintenance & Utility), Project management, and equipment troubleshooting. Currently working as AGM at Meghna Components Ltd., overseeing the maintenance of electrical and mechanical systems for Bi-Cycle Accessories, Paper & Packaging, Melamine production. Extensive experience in designing and commissioning Sub Stations, BBT, Diesel & Gas Generator, Boiler, ETP, WTP, LPS, handling large-scale equipment installations, and leading teams for efficient and smooth production operations. Proven ability to resolve technical issues and improve system reliability.

EXPERIENCE

Meghna Components Ltd. (Bormi plant, Sreepur, Gazipur)

AGM – Dept. Head (Utility & Maintenance).

Duration: 3rd October 2020 - Present

Product: Bi-Cycle Accessories, Paper & Packaging, Molding & Melamine Products.

- Develop detailed specifications and establish timelines for the installation of new electrical and mechanical equipment for upcoming projects.
- Lead the design and modification efforts for both new and existing projects, ensuring alignment with technical requirements and verifying quotations and specifications.
- Oversee the maintenance, Repair and troubleshooting of all Machineries, 10MW 33/11KV REB Line, 4 Sets 1.5MW Gas Generator, 3 Sets 520KW Diesel Generator, 3Sets Steam Boiler 4.2 Tons, 3 Sets Air Compressor 110KW, Water Cooled Chiller 290 Tons, 250 Tons VRF System, ETP, WTP etc., ensuring smooth operation of production equipment.

Another Factory's Experience: (Under Meghna Components Ltd.)

- **Alpha Carbon Technology Ltd.:** Designed factory electrical and mechanical machine layout, 1600 KVA sub-station, 2 diesel generators (630KW & 450KW), and installed BBT systems (3200A to 630A).
- **Alpha Molding Technology Ltd.:** Designed factory machine layout; installed and maintained CNC machines, grinders, electric furnaces, EDM, drilling, wire cutting, and air compressors; troubleshot 250KVA AVR.
- **Transworld Paper & Packaging Ltd.:** Designed factory layout and 1000 KVA sub-station; installed BBT systems (2000A to 1000A), air compressors, a 4.2-ton boiler, and a 520KW generator; performed machine troubleshooting.

Meghna Denims Ltd. (A Sister Concern of Meghna Group)

Asst. Manager –(Utility & Maintenance).

Duration: 10th May 2017– 30th September 2020

Product: Jeans Pant

- 3MW Sub-Station installation, testing & commissioning.
- RMG & Washing Building Bus Bar Trunking System, Lighting BBT, Machine BBT & Power BBT (3200A-25A).
- 1.5 MW Gas Generators 2 Sets installation, testing & commissioning.
- 4.2 Ton Steam Boiler 2 Sets installation, testing & commissioning.
- Air Compressors 110KW 2 Sets installation, testing & commissioning.
- ETP 150m3 , WTP installation, testing & commissioning.
- Under construction Electrical all works PVC pipe laying, Electric Wiring,DB.SDB.MDB fitting and fixing works etc.
- RMG building all machine Electrical connection and testing & commissioning works etc.
- Washing building all machine Electrical connection and testing & commissioning works etc.

MamPower Ltd. (A Leading Sub-Station Manufacturing Company).

Asst. Manager (Service), Duration: 3rd May 2015- 30th April 2017

Product: Sub-Station & Bus Bar Trunking (BBT) Systems.

- Managed the design, installation, testing, commissioning, and maintenance of 33/11/0.415 KV substations and Bus Bar Trunking, Developed specifications and schedules for the installation of new electrical and mechanical equipment in ongoing and new projects.

Energypac Engineering Ltd. (A Sister Concern of Energypac Group)

Sr.Engineer (Service), Duration: 1st December 2013- 30th April 2015

Product: Sub-Station & Bus Bar Trunking (BBT) Systems.

- Managed the design, installation, testing, commissioning, and maintenance of 33/11/0.415 KV substations and Bus Bar Trunking, Developed specifications and schedules for the installation of new electrical and mechanical equipment in ongoing and new projects.

TRAINING SUMMARY

- Youth Development Training: House Wiring, Youth Development Training Center, Rajshahi (2005, 6 Months)
- Industrial Training: Substation, PGCB, Katakhali, Rajshahi (2007, 6 Months)
- Programmable Logic Controller (PLC) & VFD: BITAC, Dhaka (2023, 2 Days)
- Electrical Safety Management: Electrical Safety, BITAC, Dhaka (2023, 2 Days)

TECHNICAL SKILLS

- MS Office
- PowerPoint
- Auto Cad Design
- Internet Browsing
- Email Communication.

LANGUAGE SKILLS

- Fluent in Bangla & English

CORE CAPABILITIES

- Ability to meet any challenge with confidence, determination & sincerity.
- Enjoy working under pressure, in different challenging and creative situations.
- Hard-working capability and retain temperament.
- Strong communication skills, good management, and ability to take leadership.
- Ability to learn quickly and implement efficiently.
- Detail-oriented and able to manage time effectively.

PERSONAL DETAILS

- Father's Name: Md. Didar Mia
- Mother's Name: Most. Habiba Begoum
- Date of Birth: 8th September 1988
- Gender: Male
- Marital Status: Married
- Nationality: Bangladeshi
- National ID No.: 19888192219322444
- Religion: Islam

Meghna Knit Composite Ltd.

Service Engineer (Utility & Maintenance)
Duration: 3rd October 2010 to 30th Nov 2013
Product: Knitting Fabrics

- Performed troubleshooting and maintenance of Pai Lung Knitting Machines in the knitting section, ensuring smooth and efficient operations.
- Managed the maintenance and troubleshooting of back sewing and air turning machines in the batch section to minimize downtime.
- Provided troubleshooting and repair services for Dyeing machines, including Dilmentar, Fongs, Canlar, and Slabos, in the dyeing section.
- Oversaw the maintenance of finishing equipment, including D-Water, slitting machines, hydro extractors, dryers, and standard and compacting machines.
- Conducted regular troubleshooting and repairs on inspection machines in the quality section to ensure high-quality production standards.
- Ensured the repair and troubleshooting of electrical equipment in substations and Bus Bar Trunking (BBT) systems, coordinating with vendors for technical support.
- Implemented a structured maintenance program, including breakdown, preventive, and troubleshooting maintenance, to ensure all machinery and equipment were operating optimally.

PROJECTS UNDER MEGHNA GROUP

- **Abrar Steel Ind. Ltd.:** Designed electrical layout, installed slitting machine, drawing machine, pipe mill, power presses, and machines for bicycle assembly, ED section, oven, and paint sections.
- **Meghna Bangladesh Ltd.:** Designed electrical layout, 630 KVA Sub-Station, and 2 sets of 200 KW Diesel Generator installation, along with machine installation for paint, oven, assembly, and phosphating sections.
- **Meghna Associates Ltd.:** Designed electrical and mechanical layout, 1000 KVA Sub-Station, Bus Bar Trunking System (2000A-630A), 630 KW Diesel Generator installation, and completed testing and commissioning.
- **Precision Metal Technology Bangladesh Ltd.:** Designed full factory electrical and mechanical layout, 2000 KVA Sub-Station, Bus Bar Trunking System (4000A-1000A), air compressors, cooling towers, and gas generator (1500 KW) installation, testing, and commissioning.
- **Mahin Cycle Ind. Ltd.:** Designed electrical layout, installed 800KW gas generator, distribution system, 630 KVA Sub-Station, and completed testing and commissioning.
- **Uniglory Cycle Components Ltd.:** Designed factory electrical layout and 630 KVA Sub-Station, including installation, testing, and commissioning.
- **Uniglory Paper and Packaging Ltd. (UPPL):** Designed 630 KVA Sub-Station, Bus Bar Trunking System, and completed factory electrical layout and commissioning.
- **Uniglory Tyre Ind. Ltd.:** Designed factory electrical and mechanical layout, 3000 KVA Sub-Station, machine installations, gas generators (1.5 MW), Bus Bar Trunking System (3200A-25A), boiler, and air compressor systems.
- **Meghna Innova Rubber Co. Ltd.:** Designed 12.5/15 MVA Sub-Station, 1.5 MW gas generators, Bus Bar Trunking System (6300A-2000A), and completed machine installation, testing, and commissioning.

DECLARATION
